# Certifications and Awards

The VMT family, VicOffice line and VicPattern Ultra acoustic panels achieved **Indoor Advantage™ Gold Certifications Building Materials**, certified by SCS Global services, meeting the standards for school classrooms and private offices. Products that have this certification help buildings achieve and maintain better indoor air quality and contribute to credits in LEED, WELL, RESET, BREEM and other green building rating systems.

The VicBooth family, including VicBooth Office and Ultra, achieved **Indoor Advantage™ Gold Certifications Furniture**, certified by SCS Global Services. Products that have this certification help buildings achieve and maintain better indoor air quality, meeting the Furniture Emissions Standard recommended for the open plan and private office workstation parameters.

VicPET Wool, the non-woven textile used on the VMT line and other solutions, is a **low emitting material with zero-emissions of VOC (Volatile Organic Compounds)** or formaldehyde, indoor air pollutants. This means it has good indoor air quality.

VicPET Wool, used in VMT and PET solutions, is **certified by OEKO-TEX 100 Standard**, meeting the human-ecological requirements presently established for baby articles. VicPET Wool does not irritate skin or eyes, and has no dust generation during handling. No chemicals were used and is thermally bonded.

The melamine used in the Ultra family of products is **certified with an Environmental Product Declaration, meeting the requirements of ISO 14025 and EN 15804**. This means the environmental performance of the raw material conforms with the Life Cycle Assessment required by ISO standards, and with the standard for the sustainability of construction works and services.

reddot winner 2020

Vicoustic collection GEN\_VMT won the **Red Dot Award: Product Design 2020** for its outstanding design quality.

VicBooth is a Winner of the German Design Awards 2022 for outstanding design quality, in the category of **Excellent Product Design for Building and Elements**.

VicBooth range won the Good Design Awards 2022, the oldest and one of the most prestigious design awards in Japan, for bringing the added value **"function of adjusting room acoustics"**.

**Installation/Accessories:**  
All installation accessories included

The **VicCinema VMT Kit** is an acoustic kit developed to maximize the acoustic conditions of a Home Cinema. The kit is available in two options: a kit with products for installation on walls and ceilings and a bass trap kit for corners.

Depending on the size of your room, or the performance you want to achieve, by acquiring one or more of these kits you will be able to achieve the main goal of a Home Cinema: a neutral acoustic environment, that assures a clear and complete film audio experience without introducing any acoustic distortions that can compromise its perception.

**Acoustic Properties:** Broadband absorption; Bass Trap

**Installation/Accessories:** Mechanical Fixation

## Mega Bass Trap VMT & VMT XXL

Two next generation broadband bass traps to deal with low end, medium, and high frequencies all in a single product, making them likely the best solution in the market to control the complete audible frequency spectrum.

Vicoustic was able to develop a product with superb acoustic performance, mostly made of recycled materials (plastic water bottles), that is recyclable at the end of life and that also takes into account air quality and human safety.

The bass traps are certified for Indoor Advantage™ Gold Building Materials, by SCS Global Services, meeting indoor air quality recommendations.

Like any other VMT product, the front is totally customizable, enabling the client to print his own label, signage, pattern, or color of preference.

# VicTotem Ultra VMT HS CODE: 44101110 HF PA
